

# Scuba Diving

## Learn to scuba dive today and explore the world underwater!

**Join the team!** Today, millions of people enjoy the beauty and tranquility of the under water world! Scuba diving is safe and easy! If you are comfortable in the water and enjoy the camaraderie of friends, then diving is for you! Join us today for an adventure that will last a lifetime!

At Discover Diving, we have been training divers since 1974 and we're ready to help you reach your goal of becoming a certified scuba diver. Our goal is your safety and enjoyment during all phases of your training.

### At Discover Diving we provide:

- Friendly staff with over 30 years experience
- Small student to staff ratios for personalized assistance and supervision
- Flexible scheduling to accommodate your lifestyle
- No hidden fees in course tuition
- Family discounts on all training
- Advance training discounts
- Retail discounts to all students
- Free lifetime scuba refresher training whenever needed for any of our former students

We are proud to offer NAUI certification programs exclusively! NAUI has been certifying divers worldwide since 1959. Their motto "Dive Safety Through Education" reflects our goal to offer you the very best training available today!

Take a moment and read through the rest of this pamphlet. Then stop in for a personal orientation session. There is no obligation. We will answer your questions and provide additional details about how you can join the team as a certified scuba diver!

**About our Learn to Dive Program:** During your scuba program you will complete the NAUI Scuba Diver certification course, and have the opportunity to earn your NAUI Nitrox Diver certification at the same time. Today's divers often prefer to use nitrox instead of air when diving. By completing both courses together you will be better prepared to take advantage of the most current trends in sport diving! We will provide additional information regarding this choice during your orientation session so you can decide which option is best for you.

Regardless of which program you choose, all students complete a series of knowledge review sessions, pool training and two days of open water dives. Classes are available in a variety of formats including independent study and group lessons.

### Your course tuition includes:

- **The use of required scuba equipment for all pool and open water dives.** The equipment we provide includes tanks, regulators, gauges, dive computers, wet suits, buoyancy compensators and weights. There are no hidden rental fees for equipment later on in the course.
- **Your personal NAUI Educational System** including text book, workbook, log book, DVD, audio CDs, RGBM Dive Tables and additional support materials. These items are yours to keep!
- **All classroom, pool and open water training sessions.** Your tuition includes pool fees and instruction.
- **Free enrollment in the DAN Student Membership Program and a free six months subscription to Dive Training Magazine.**
- **Your NAUI Scuba Certification Card** upon completion of your training.
- **Discounts on equipment and future training.**

**Provided by the student:** While we provide most of the equipment you will need during training, students must provide a few personal items on their own. **You will need only a bathing suit and towel the first night.** We will provide masks, snorkels and fins for the first two weeks of class if needed. By the 3rd pool sessions, students must provide their own mask, snorkel, fins. Discover Diving will help you select the equipment that is right for you and **we offer a 10% student discount** for purchase of this equipment at the shop, so be sure to talk to us before making any equipment selections. Plus, when you purchase any dive equipment at Discover Diving, we guarantee the fit and comfort. We call it our Purchase Assurance Program and we will provide you with additional information about that program during your orientation.

**Additional fees not included in the course tuition:** The only additional fees depend upon the location of your training dives. These fees could include boat charter or dive site admission fees. Travel and meals are also not included. There are no additional fees for equipment rental or air fills.

**Tuition:** Our course tuition includes everything you need to complete your training except as noted above.

NAUI Scuba Diver - \$325  
(\$50 discount for each additional family member)  
NAUI Nitrox Diver upgrade - \$100  
(A \$50 discount off the regular tuition of \$150)

**Still undecided?** If you're not sure scuba is for you, join us for a Discover Scuba pool session for just \$25. Bring only a bathing suit & towel. After the session, if you decide to take the full program we will deduct the \$25 fee off your tuition.
